Public Service Announcement

Portions of Environmental Impact Assessment Posted

[*Bridgetown, BARBADOS*] As a public service and for reference, the Graeme Hall Nature Sanctuary has temporarily posted several portions of the Environmental Impact Assessment Report (EIA) for the proposed Long Beach development within the Long Beach wetland in Barbados.

Attempts are being made to obtain the remainder of the EIA document.

Sanctuary officials have been interested in the outcome at Long Beach, as both Graeme Hall and Long Beach are traditional wetland conservation areas on the South Coast.
